ENTRY MANAGER NOTES

- Download and install the Entry Manager program from the website links. Once installed the application can remain on your computer and used for other meets that use Sportsystems entry files. **It is important to check for updates before proceeding.**
 - Full instructions can be found within the program under 'Help'
-

CLUB ENTRY

- Run the program and configure for your club,
 - Download the entry file set for the meet and import into Entry Manager.
 - Download the valid swimmers file for your club. To do this you need to be a Swim England registered member of the club and follow the instructions on the SPORTSYSTEMS website www.sportsys.co.uk to obtain a personal key.
 - Enter your swimmers by selecting them from the list which appears when you start to 'add' swimmers, this ensures compatibility with the Swim England membership database and ranking system.
 - The 'Get Times' button can be used to get the current times for the swimmer from GB Ranking. The best time in the last 12 months will be populated, this includes converted times where necessary. **As far as possible times should be taken from ranking but a time must be submitted for all events.**
 - Times entered that do not satisfy the entry standard, will be flagged 'Y' (yellow). These times cannot be used and will be automatically rejected when the swimmer is saved in the entry file. After downloading times from GB ranking then also click on any non-required 'Y' (green) swims and these will change to 'N' (red), before saving.
-

INDIVIDUAL OR FAMILY ENTRY

- As for club entry but is not necessary to download the valid swimmer file. Simply set the organisation to be your club, then go to add entries and simply key in your Swim England registration number and click 'Get Member'
-
- Entry forms are supplied for club use to facilitate collection of swimmers details, when using entry manager do not submit forms as these are not required. The entry forms are a word document which can be edited to suit your club, or you may choose to use your own. Whichever way you decide it is important to keep a record of your entries.
 - If entering swimmers with a disability the S, SB & SM classes should appear automatically.
 - If editing a previously saved swimmer you must make sure that the entries are correct before saving again.
 - When all the entries have been entered and checked use the report features to print your entries which also calculates the total cost. Then 'export' the file and return to the meet administrator by email.
 - Finally send payment with a copy of the printout from Entry Manager to the meet administrator.
